Objective

Top rated and professionally trained videographer with extensive skills in a variety of diverse and demanding environments.

From professional training as a cameraman at various television studios in Australia and the UK I have diversified and broadened my professional career from core news to factual, entertainment, corporate, reality and general interest documentaries. I have brought to each job undertaken a high level of professional commitment to ensure the result always exceeds the client expectations.

The variety of work that I attract is in large measure to the wide range of skills I bring to each job. Filming on all format Camera systems, Steadicam, Editing on FCP, Drone Quadcopter, Underwater camera and Jib are capabilities many clients require that I can provide directly.

In addition to breaking international news assignments, I have worked on several television documentaries for the Asian Development Bank, National Geographic Channel and the Discovery Channel. I have also provided expertise for numerous corporate video clients, including UBS, Goldman Sachs, The Hong Kong Tourism Board and the US Department of Commerce and many more. Recent high profile projects include corporate marketing videos for the Shangri-La Hotels & Resorts, Mongolia Energy Corporation, The Noble Group, and the Grand Lisboa Hotel, Macau.

I have an extensive list of references of clients and business partners throughout the Asia Pacific region who are prepared to personally recommend my services.
